

Предстоящие конференции

	Название конференции	Название доклада	Авторы	Срок проведения
1.	The Eleventh Annual Society for the Neurobiology of Language Conference (SNL 2019), Helsinki, Finland https://www.sciencedz.net/en/conference/54965-snl-2019-the-eleventh-annual-society-for-the-neurobiology-of-language-conference	Processing of Action-related Verbs Non-specifically Affects the Initiation and Execution of Arm- and Leg-reaching Movements	Razorenova A.M., Chernyshev B.V., Nikolaeva A.Yu., Butorina A.V., Prokofyev A.O., Tyulenev N.B., Stroganova T.A.	20-22 August, 2019
		Effortful verb retrieval from semantic memory drives beta suppression in higher-order motor areas	Boris Chernyshev, Anna Pavlova, Anna Butorina, Anastasia Nikolaeva, Andrey Prokofyev, Maxim Ulanov, Denis Bondarev, Tatiana Stroganova	20-22 August, 2019
		How semantic association influence word processing: MEG study	Alexandra Razorenova, Boris Chernyshev, Anna Butorina, Anastasia Nikolaeva, Andrey Prokofyev, Nikita Tyulenev, Tatiana Stroganova	20-22 August, 2019
		Acquisition of word meaning: associative reward learning stimulates fast temporally coherent auditory-motor mapping in the human brain	Boris Chernyshev, Anna Butorina, Alexandra Razorenova, Tatiana Stroganova	20-22 August, 2019
		Brain Mechanisms of Acquisition of New Word Meaning	Razorenova A.M., Chernyshev B.V., Nikolaeva A.Yu., Butorina A.V., Prokofyev A.O., Tyulenev N.B., Stroganova T.A.	20-22 August, 2019
		Utility of ictal MEG in the presurgical evaluation of patients undergoing epilepsy surgery.	Tatiana Stroganova, Alexandra Koptelova, Anna Kruchkova, Viktor Chadaev,	11-14 September, 2019

2.	The Meeting of the International Society for the Advancement of Clinical MEG Canada, Toronto https://isacmtoronto.org		Pavel Vlasov, Armen Melikyan	
		Associative acquisition of action word meaning leads to activation of perisylvian speech-related areas time-locked to action initiation	Boris Chernyshev, Anna Butorina, Anastasia Nikolaeva, Andrey Prokofyev, Tatiana Stroganova	06–08 September, 2019
		Understanding lexicality mechanisms via trial-and-error word learning: MEG study	Alexandra Razorenova, Boris Chernyshev, Anna Butorina, Anastasia Nikolaeva, Andrey Prokofyev, Nikita Tyulenev, Tatiana Stroganova	06–08 September, 2019
		“Intensive language-action therapy combined with anodal tDCS leads to verb generation improvements in chronic non-fluent post-stroke aphasia”	Maxim Ulanov, Yury Shtyrov, Olga Dragoy, Svetlana Malyutina, Anna Pavlova, Ekaterina Iskra, Olga Soloukhina, Olga Buivolova, Vidya Somashekarappa, Andrey Prokofyev, Matteo Feurra, Tatiana Stroganova	06–08 September, 2019
3.	The 48th Annual General Meeting of European Brain and Behaviour Society (EBBS) http://www.ebbs2019.org/	Electroencephalographic correlates of performance monitoring	B. Chernyshev, V. Medvedev, E. Chernysheva, K. Sayfulina	21-24 September, 2019
		Mechanisms providing access to associated word semantics. MEG study	B. Chernyshev, A. Razorenova, A. Nikolaeva, A. Prokofyev, N. Tyulenev, T. Stroganova	21-24 September, 2019
