in partnership with leading universities,

**invites you to participate in the XXIV International Scientific-Practical
Conference for Young Education Researchers**

"PRACTICE-ORIENTED SCIENCE: PROMISING DIRECTIONS AND ORGANIZATIONAL MODELS"

November 6–7, 2025

THE CONFERENCE WILL BE HELD IN A HYBRID FORMAT

Bachelor's, Specialist, Master's, Postgraduate students, as well as educators conducting research in the field of education, are invited to participate in the conference.

Conference Goals:

- Creating a space for scientific self-determination, professional development, and socialization of young and early-career researchers
- Engaging young researchers in the implementation of the Education Development Strategy until 2036 and with a long-term perspective until 2040

Goals of the conference:

- Presentation of research results and ideas by conference participants
- Facilitating effective scientific reflection and feedback for conference participants;
- Building collaborative relationships and research communities among young and early-career education researchers;
- Networking with academic advisors and consultants, fostering mentorship and supervision;
- Self-determination and exploration of future professional development pathways.

The thematic focus of the XXIV conference will be the discussion of priority research areas aimed at the scientific and methodological support of the implementation of the Education Development Strategy until 2036 and the outlook until 2040.

The conference is held with international participation, including the engaging of foreign Associations of Education Researchers.

The conference program includes a plenary session, thematic sections and round tables, and interactive master classes.

The plenary part of the conference is attended by leading Russian educational researchers.

Thematic Section Topics:

1. Preschool Education: Developmental Environment, Upbringing.
2. Features of Development, Socialization, and Education of Today's Children and Adolescents.
3. Education and Psychological Support for Children with Special Needs (children with disabilities, children with deviant behavior, orphans and children without parental care, children in military operation zones, children of foreign nationals), as well as children with learning difficulties.
4. Modern Upbringing Technologies.
5. Working with Parents: Building Communities, Models of Interaction between Educators and Parents.
6. Career Guidance, Natural Science and Mathematics Education, Technological Sovereignty.
7. Preparation, Professional Adaptation, and Postgraduate Support for Graduates; Professional Development of Teaching Staff.
8. Digital Technologies in Education.
9. Studying International Experience for Potential Implementation of Elements into the Russian Education System.

Participation Formats:

- ✓ Oral presentation
- ✓ Attendance as a listener
- ✓ Abstract publication

Following the results of the conference it is planned to publish an electronic collection of conference abstracts.

Only abstracts approved by reviewers will be published.

The best papers will be recommended for publication in MSUPE journals included in the international databases Web of Science and Scopus.

Participation Requirements:

To participate in the conference it is necessary to register in the electronic registration system on the website: <http://myeduconf.ru>.

Applications for participation and abstracts will be accepted **until October 20, 2025**. Requirements for abstracts design are available at: <https://myeduconf.ru/conference/requirements>. Participants are recommended to work in the style file, which is available on the conference website <http://myeduconf.ru> in the "TO PARTICIPATE" section.

The organizational fee is not charged from the participants of the conference.

Conference working languages: Russian, English.
